Job Title

L1 SOC Analyst

About Algosystems

We are a reliable and dynamic systems integrator/service provider active in the technology areas of ICT, Cyber Security, Automation and Metrology.

Our drive and enthusiasm comes from our people, which is why it is most important for us to recruit positive and confident professionals, who are passionate about their work and eager to be part of our success stories.

About the Role

As a L1 SOC Analyst, you will be part of a motivated team whose goal is to ensure our customers are protected from cybersecurity incidents.

You will need to be comfortable handling critical and sensitive systems and complying with defined procedures. Finally, this role includes day and night shifts as our SOC services include 24*7 coverage.

Key Responsibilities

- Closely monitor customers' security threats and alerts via SIEM and other security solutions
- Perform investigation and escalate security incidents within a targeted timeframe
- Generate reports and findings regularly
- Contribute to continuously improving SOC services and processes
- Maintain awareness of trends in cybersecurity regulatory, technology and operational requirements

Qualifications and Working Experience

- Bachelor's degree in Computer Science, Information Technology or relevant field

- Master's degree in cyber security would be considered a plus
- 1 year of working experience in the Cyber Security field would be considered a plus
- Basic knowledge of any SIEM solution (e.g. IBM Qradar) or other security tools (e.g. Wireshark) would be considered a plus
- Solid knowledge of network and security principles
- Proficient in English and Greek
- Proficient with Microsoft Office

You are the right candidate if you possess the following core competencies:

- Ownership
- Accountability
- Analytical, problem solving skills
- Attention to detail
- Ability to prioritize and multi-tasking skills

Benefits

- Competitive salary based on the candidate's qualifications and competencies
- Great working environment
- Training and development

Algosystems is an equal opportunity employer and all qualified applicants will receive consideration without regard to race, color, religion, sex, national origin, disability status or any other characteristic protected by law.
