

[qmetric | HR Solutions](#) is currently recruiting, on behalf of [Epiagnosis LLC](#), the position of

Quality Assurance Engineer

The company

[Epiagnosis](#) is a leading software house and eLearning solutions provider. It is a growing, profitable tech firm with offices in San Francisco, London, Athens and Lefkosia. Trusted by thousands of organizations worldwide, Epiagnosis designs and builds corporate-grade learning management tools to cover a vast array of training needs. The company's portfolio includes [eFront](#), an award-winning enterprise LMS; [TalentLMS](#), a flexible cloud-based LMS; and [TalentCards](#), a mobile microlearning solution.

The position

This position is for a Quality Assurance Engineer to develop and execute exploratory and automated tests to ensure product quality. Your main duties will include:

- Create detailed, comprehensive and well-structured test plans and test cases
- Estimate, prioritize, plan and coordinate testing activities
- Design, develop and execute automation scripts using open source tools
- Identify, record, document thoroughly and track bugs
- Perform thorough regression testing when bugs are resolved
- Develop and apply testing processes for new and existing products to meet client needs
- Liaise with internal teams (e.g. developers and product managers) to identify system requirements
- Monitor debugging process results
- Track quality assurance metrics, like defect densities and open defect counts
- Stay up-to-date with new testing tools and test strategies.

Your profile

To be qualified for the job, you must possess the following skills and requirements:

- BSc/MSc degree in Computer Science, Engineering or a related subject
- 3-4 years work experience in software quality assurance
- Knowledge of software QA methodologies, tools and processes
- Experience in writing clear, concise and comprehensive test plans and test cases
- Hands-on experience with automated testing tools (e.g., Selenium)
- Passion for testing and breaking software
- Excellent knowledge of English language

Our Client offers

In case you are selected for the specific position, you will enjoy:

- A vibrant working environment full of creative individuals
- Extensive opportunities for personal growth and development
- A competitive salary
- A private healthcare plan
