What is YouthSpeak Forum?

YouthSpeak Forum powered by AIESEC is an event run by youth for youth. It is a forum where **inspiration** and **collaboration** convert into **action**.

This event brings together both **young** and **senior leaders** to form a diverse cross-sector and multigenerational space for inspiring conversations around pressing global, national, and local issues.

The forum's aim is to engage and mobilize young people, with the guidance of like-minded other like minded peers and/or organizations, towards the achievement of the **Sustainable Development Goals**.

Why YouthSpeak Forum: Opportunities?

How can I create opportunities for my future? Are there equal opportunities for all? What skills do I need to create opportunities?

These are the conversations YouthSpeak Forum aimed to initiate. YouthSpeak Forum: Opportunities engages with this topic from various perspectives and through multiple stakeholders.

At the same time, every keynote, each workshop and the action space addressed at least one Sustainable Development Goal, focusing on:
